

Project Name

ASWAQ ALHARAMEN - Mini Supermarket Management System

Project Description

ASWAQ ALHARAMEN is a web-based supermarket management system that allows customers to browse products, search by category, add products to their shopping cart, and manage their personal profiles. The system also provides an admin dashboard where administrators can manage products, categories, users, and orders.

User Roles

Admin

Permissions:

- Manage products
- Manage categories
- Manage users
- Manage orders
- Upload product images
- View dashboard statistics

Available Actions:

- Add Product
- Edit Product
- Delete Product
- Add Category
- Edit Category
- Delete Category
- View Users
- Update Order Status

Customer

Permissions:

- View products
- Search products
- Add products to cart
- Place orders
- Manage profile
- View order history

Available Actions:

- Register
- Login
- Browse Products
- Add to Cart
- Remove from Cart
- Update Cart Quantity
- Edit Profile

Features List

Authentication

- Register
- Login
- Logout
- Password Encryption

Authorization

- Admin Dashboard
 - Protected Admin Routes
 - Role-Based Access Control (Admin / Customer)
-

CRUD Operations

Products

- Create Product
- View Products
- Update Product
- Delete Product

Categories

- Create Category
- View Categories
- Update Category
- Delete Category

Orders

- Create Order
- View Orders
- Update Order Status
- Cancel Order

Cart

- Add Product to Cart
 - View Cart
 - Update Quantity
 - Remove Product from Cart
-

Upload Features

Product Image

- File Types: JPG, PNG
- Maximum Size: 5 MB
- Uploaded By: Admin

Profile Image

- File Types: JPG, PNG
 - Maximum Size: 5 MB
 - Uploaded By: Customer
-

Database Collections

Users

- id
- name
- email
- password
- profile Image

Products

- id
- name
- title
- price
- stock

Learning Objectives

- Analyze a real-world supermarket management system before development.
- Identify system users and their permissions.
- Plan CRUD operations for products, categories, carts, and orders.
- Implement Authentication and Authorization.
- Design the application's user interface using Figma.
- Prepare a complete project plan before starting development.
